KUREHIN SKINCARE

K-BEAUTY TREND

Korean skincare is leading the way. With a 10-step regimen, each step requiring a specific product, this routine is a game-changer for skincare.

GLASS SKIN

Glass Skin has undoubtedly become the most sought-after skincare trend in recent times. This meticulous routine aims to create a flawless, glass-like complexion, characterized by velvety smoothness and a complete absence of blemishes.

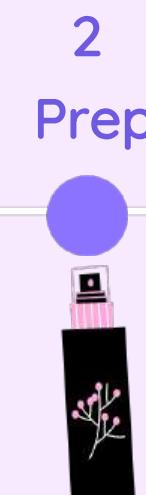

DOUBLE CLEASING

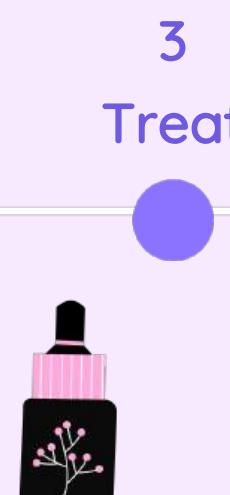

This is the initial step in the Korean skincare regimen. It involves a double cleansing process: first, an oil-based cleanser is applied to dissolve makeup and excess sebum, and then a water-based foaming cleanser is used for a deeper clean.

The Foundation of Korean Skincare: Double Cleansing

So, what exactly is this double cleansing thing all about?

Double cleansing: It's not just a trend, it's a phenomenon! This two-step method has captured the attention of beauty enthusiasts worldwide.

cleanse

Double Cleansing is a two-step cleansing method popularized by Korean skincare. It's designed to provide a deep and thorough cleanse, removing all traces of makeup, sunscreen, sebum, and other impurities.

-  **Step 1:** Oil-Based Cleansing - such as a balm or oil, is massaged onto dry skin to break down oil-based impurities like makeup, sunscreen, and sebum. The oil attracts and dissolves these substances, lifting them from the skin.

-  **Step 2:** A water-based foam cleanser is then used to remove the oil-based cleanser, along with any remaining water-soluble impurities. This step ensures that the skin is completely clean and refreshed.

Benefits of Double Cleansing

Complete Impurity Removal:

Double cleansing removes makeup, impurities, sunscreen, and excess sebum more effectively than traditional cleansers. It ensures that your skin is impeccably clean.

Enhanced Product Absorption:

Clean skin absorbs skincare products like serums, moisturizers, and treatments more effectively, maximizing their benefits.

Preserves Skin's Natural Barrier:

Using an oil-based cleanser helps to maintain the skin's natural lipid barrier, preventing dryness and irritation.

Improves Skin Texture and Luminosity:

Regular double cleansing can help to remove dead skin cells, promoting a brighter, smoother, and more even complexion.

TARGET

GEN Z

Generation Z is the future of consumerism. Digitally native and globally connected, they are redefining how brands market to consumers.

- **Key Characteristics and Behaviors:**
 - Open-minded and global: They value diversity and inclusivity, seeking brands that align with their values.
 - Demanding and impatient: Gen Z expects personalized experiences and instant gratification.
 - Health-conscious and environmentally conscious: They prioritize products that are good for them and the planet.
 - Digital natives and social influencers: They rely heavily on online reviews and social media recommendations.
 - Experiential shoppers: They seek unique experiences and value-added services, both online and in-store.
- **What Gen Z Wants:**
 - Authenticity: Brands that are genuine and transparent.
 - Personalization: Products and experiences tailored to their individual needs.
 - Sustainability: Products that are environmentally friendly.
 - Social impact: Brands that make a positive impact on the world.

Our values

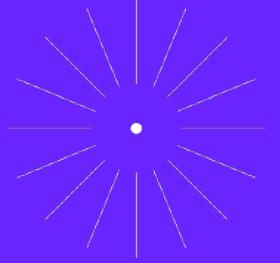

INCLUSIVE BEAUTY

We believe that beauty knows no gender. Our products are designed to cater to all skin types, ensuring that everyone can find the perfect fit for their unique needs.

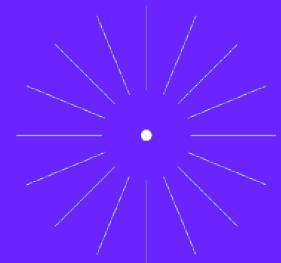

QUALITY AND INNOVATION

We are passionate about creating products that not only look good but also work. Using the finest ingredients and cutting-edge technology, we deliver results you can see and feel.

SUSTAINABILITY

We are committed to minimizing our impact on the planet. From sourcing natural ingredients to using eco-friendly packaging, we strive to create a more sustainable future.

TRANSPARENCY

We believe in being open and honest with our customers. We provide clear and transparent information about our products, our ingredients, and our company values.

VALUE PROPOSITION

By merging the innovative spirit of Korean skincare with Italy's renowned quality and production standards, we deliver products tailored to the unique needs of European skin. Our formulas are effective, safe, and sustainable, all while offering exceptional value for money. With a commitment to transparency, we empower you to make informed choices about your skincare routine.
